Our social media community guidelines

Be safe: the safety of children and vulnerable adults are paramount.

Be respectful: Do not post content that is sexually explicit, inflammatory, hateful, abusive, insulting, or slanderous.

Take responsibility: You are accountable for the things you do, say, write, and repost. If in doubt, do not post it.

Respect the holy church: Do not post commercial advertisement, do not use our social media platforms for non-UK registered charity or individual fundraising campaigns.

Recognise that not everybody is interested in politics: our platforms must be politically neutral and should not be seen to promote any political movement or messages openly and/or subliminally.

Personal information security: do not share/pass on personal information without consent.

How will we respond to people who breach our social media community guidelines?

The questionable message is to be reported to the board, the board is to make a decision to determine if any guidelines have been breached.

If any guidelines have been breached, the platform host will ask the offender to delete the message. Refusal to do so will result in the user being blocked.
